Checklist

for system compliance
with data regulations

☐	I make sure the service benefit the user and don't cause harm
☐	I have the user's need and wishes in center
☐	I make sure the user can control the level of privacy
☐	I make sure that collected data comply with data regulations
☐	I design it so that features can be switched on and off by the user
☐	I make features and functions transparent so that it is easy for the user to understand what is happening

This checklist was prepared for developers as a help to make sure their services comply with the data regulations and our principles.
